

PUBLIC NOTICE

Village of Manotick Municipal Servicing Traffic Management for Sanitary Sewer Installation

City Contract Nos. ISB06-2053 and ISB06-2055
Construction Notification 8 April 2009

During the week of April 20th 2009, construction work will begin along Rideau Valley Drive and Manotick Main Street for the above-mentioned contracts. Although traffic flow will be maintained during construction, this work will impact vehicular movements as follows:

- Two-way traffic (i.e., one northbound lane and one southbound lane) will be maintained along Manotick Main Street, between Bridge Street and Bankfield Road;
- Traffic will be restricted to NORTHBOUND ONLY along Rideau Valley Drive, between Bankfield Road and Prince of Wales Drive. Southbound traffic will be required to use Prince of Wales Drive and Bankfield Road to detour around the work area; and
- Additional local road closures/detours will be required within the commercial core during construction. The City will notify the public of minor road closures/detours as work progresses.

These changes are expected to be in place until September 2009. Please refer to Figure 1 below for further details.

The City is committed to minimizing disruption and inconvenience to the public during construction and will ensure that works are completed as efficiently as possible. We would like to thank you for your patience and co-operation during this significant undertaking. If you have any questions, or if you need special assistance during the construction, please contact the City's project manager.
